- Wideband Audio for Crystal-Clear Conversations
- Choice of Noise-cancelling microphone or Voice Tube microphone
- Large ear cushions for extra comfort
- Optimised for Contact Centre use
- All-day durability thanks to robust design
- 5 year warranty

The Soundpro Wideband Corded headset range is dedicated to all-day comfort and call clarity. Delivering professional performance and exceptional value, Soundpro Wideband is a cost-effective headset that doesn't compromise on quality.

Wideband audio technology guarantees truly first-class sound quality and ensures that every conversation is crystal clear. If your telephone system is also wideband-enabled, you'll experience unprecedented depth, richness and clarity of sound. Soundpro Wideband headsets are great

to look at, comfortable to wear, cost-effective and built to last in even the busiest environments. The robust design is backed by a 5 year warranty, so you know your headset will keep working - and helping you work.

When coupled with the patented technology of the Soundshield 4G Acoustic Protection device, Soundpro Wideband headsets provide unsurpassed Acoustic Safety. This combination ensures the ultimate in acoustic protection without compromising on style and comfort.

The Soundpro Wideband Corded headset range:
Cost-effective communications, uncompromised quality.
